

Simplifying the Management of Regulatory Change

Overview

Reliable Intelligence You Can Trust

CUBE Intel is a purpose-built regulatory intelligence solution designed for fast growing regulated entities.

CUBE Intel delivers clear and reliable regulatory intelligence by combining advanced AI with expert human insight, providing your business the clarity it needs to make informed decisions. Designed to track and analyse regulatory change in near real time, CUBE Intel streamlines regulatory change management and core compliance processes.

With access to the world's largest corpus of regulatory and compliance content, supported by expert interpretation, CUBE connects users directly to the information that matters as the regulatory landscape evolves. Its intelligence enables firms to understand regulatory developments quickly, assess relevance and impact, assign ownership, evidence decisions, and maintain continuous compliance through workflow driven change management.

Benefits

Regulatory Overload Management

Filter and prioritise relevant updates from a vast array of global regulations

Streamlined Compliance Processes

Replace manual methods with automated tracking and classification

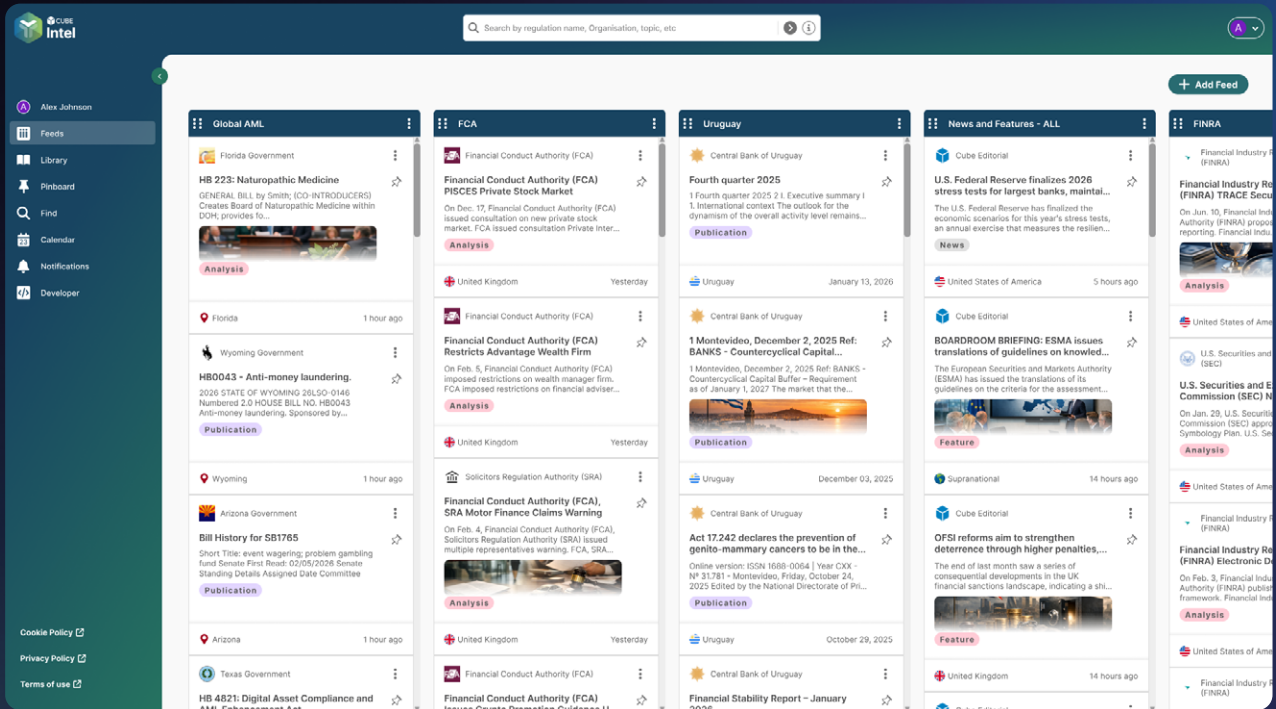

Enhanced Risk Visibility

Eliminate gaps in compliance coverage across jurisdictions and languages

Key Features

CUBE Intel delivers a personalised experience. The platform learns your areas of interest and proactively recommends relevant content, helping you stay informed. By reducing unnecessary information and delivering highly targeted insights, it ensures users receive more signal and less noise, effortlessly.

Regulatory Feeds

Create personalised feeds from the regulators that matter to you most. See every relevant update, from every source, all in one place.

Regulatory Library

Access global laws and regulations in a single, expert-curated library. Reviewed, organised, and ready when you need it.

Customer API

Integrate CUBE Intel content into your existing systems using our REST API, supported by a Developer Portal for simple setup and ongoing updates.

Remove Monitoring Calendar

Plan ahead with confidence. View key dates, deadlines, and upcoming obligations automatically.

Personalised Home Page

Consolidated, recommended for you, Library Updates, News & Features, Calendar, and quick links into a single customisable workspace.

Real-Time Alerts & Notifications

Instant alerts when regulations change. Keep your whole team informed, aligned, and ready to act.

Why CUBE

CUBE Intel is an AI-powered regulatory intelligence solution designed to simplify compliance for fast growing regulated entities.

By combining expert-driven insights with advanced AI, the platform enables compliance and risk teams to filter, prioritise, and act on the most critical regulatory updates in real time.

Whether you're scaling internal compliance operations or navigating increasing regulatory demands, CUBE Intel will redefine your regulatory intelligence strategy in minutes. Contact us today or book demo.
